Max Schling's

GARDEN MONTHLY

Vol. III, No. 3

July, 1943

Record-Breaking Season Taxed Our Facilities

With the advent of the summer season everyone of our organization from the packers to the manager experiences a feeling of relief.

For a time it looked as though it would be impossible for us to ever catch up with our orders, but by putting in an average of 72 hours weekly and with the aid of a liberal sprinkling of high school boys and girls we came through so that by the end of April our orders were being filled within a day or two after booking.

Explanations for the overwhelming season are unnecessary, Victory Gardening is the main reason, and we frankly admit that our calculations never estimated the tremendous volume that we (sic.) enjoyed (?). We feel that we owe a great many of our loyal clients an apology for the departure this past season from our usual prompt service, and we wish to thank those who patiently put up with our trials, by not insisting upon immediate deliveries or demanding that we supply items, procurement of which was impossible.

Our main concern now, prompting these closing words is: Stick to your Victory Garden to the end; make it produce its maximum; do not become discouraged by the heat, weeds or insects, remembering always that the seeds that you purchased, the food that you are producing, and the ground that you occupy are investments in our ultimate Victory.

Respectfully yours,
MAX SCHLING SEEDSMEN, Inc.

STRAWBERRY PLANTING TIME ~ August to October

Luscious Strawberries ~

POT GROWN for Your Complete Satisfaction

The above illustration serves to show the all-around excellence of our pot-grown Strawberries. These plants will enable you to enjoy maximum satisfaction if planted properly at the proper time.

Two Outstanding New Varieties

Starbright. (Late.)
A U. S. Department of Agriculture introduction. A beautiful large glossy firm berry of excellent quality produced in abundance. 25 for \$4.00; \$14.00 per 100.

Royal Sovereign. An imported berry from England. Splendid for forcing under glass in winter. A fine June bearer outdoors. 25 for \$5.00; \$16.00 per 100.

EARLY BEARING VARIETIES:

Dorsett. Undoubtedly the most popular variety. Bright rich red. Most delicious flavor.

Premier. Uniformly big, shapely berries.

EARLY TO MIDSEASON:

Fairfax. Ripening after Dorsett. One of the best.

Marshall. Gigantic dark crimson fruits.

MIDSEASON TO LATE:

Chesapeake. Mild, non-acid and sweet.

Big Joe. Old favorite. Grows with almost no care in any soil.

LATE:

Big Late. Heavy producer. Berries held well above ground.

Gandy. Fine canning and shipping berries.

Price on Foregoing Varieties:
\$3.25 for 25; \$10.00 per 100.

EVERBEARING VARIETY:

Mastodon. Affectionately known as the Wonder Berry. Outyielding some of the best early sorts in their regular season, it continues to produce throughout summer and fall. \$4.50 for 25; \$12.50 per 100.

ORDER EARLY TO AVOID DISAPPOINTMENT

LONG BEARING

Collection

The following varieties will insure a continuous crop of Strawberries from early June until late autumn. Each variety listed has been selected by us as the best of its bearing season.

Dorsett. Extra early.

Marshall. Midseason.

Big Late. Late.

Mastodon. Everbearing.

12 of each (48 plants) .. \$ 5.50

25 of each (100 plants) .. 10.00

50 of each (200 plants) .. 18.25

All orders sent express collect.
If parcel post is desired, include 35c for each order up to 100 plants; 50c per 100.

Schling's HARDY PERENNIALS—Sow Any Time from June

HOW TO GROW THEM. Hardy plants (perennials) bloom the second year from seed and are permanent thereafter. A hardy border properly planned and planted is a source of joy from early spring to late autumn. The plants need little attention other than to be kept free from weeds and given an occasional top-dressing of plant food.

WHEN TO SOW. Seed may be sown in a hotbed in February or March, or out-of-doors from the first days of May to mid-August. It is well to sow as early as possible, thus permitting the plants to become strong and well established before winter.

WHERE TO SOW. For most perennials a cold frame is an ideal place for starting seeds, but if you do not have one, make a seed bed of finely sifted, light soil, adding and mixing thoroughly well decayed manure, humus, or prepared plant food. Sow the seeds in shallow drills, covering one-eighth inch or more, according to the size of the seed, but very fine seed should only be lightly pressed into the soil.

CARE OF SEEDS AFTER SOWING. Press down the bed with a flat board, and water gently but thoroughly with a fine spray. Do not permit the soil to become dry while the seed is in process of germination, for until the plant develops roots its life depends entirely on moisture. Nearly all failures in growing perennials may be attributed to drying in the seed bed, which should be carefully watched and watered until the plants have made from four to five leaves.

CARE OF PLANTS AFTER GERMINATION. Most seeds will germinate in from eight to fourteen days, but others may need a month or so; therefore do not become impatient. If seedlings come up very thickly, pull out some and transplant to boxes or other seed beds; later they may be set out in the permanent place. Transplanting should be done before October 1st, to permit the plants to become established before frost. Mulching the plants with leaves, salt hay, or peat moss about the middle of December is a distinct advantage. The leaves and hay must be removed in spring, but the peat moss may remain. Full cultural directions will be found on each packet of Schling's seeds.

Everybody wants perennials in generous measure, to secure effects in color and charm. If you delay and finally buy plants, an attractive perennial border may require several hundred dollars' worth of plants.

Exactly the same results can be secured with \$10 to \$15 worth of Seeds! And aside from the money-saving, you have the fascination of growing your own plants, nursing them from the beginning, and loving them all the more! **Sow your seeds now, and the plants will bloom next year.**

Varieties marked (*) are suitable for rock garden.

	Height	Time of Flowering	Color	Pkt.
Agrostemma coronaria atrosan-guinea (Rose Campion)	2 ft.	July-Sept.	Crimson	\$0.10
* Alyssum rostratum	15 in.	Continuous	Yellow	.25
* saxatile compactum	9 in.	April, May	Golden yellow	.25

PLEASE NOTE.—We ship freshly harvested seeds only of the following: All Delphinium, Annual Larkspur, Pansy and Viola. Any delay in their delivery will be well worth waiting for.

IRIS

They Lead the Beauty Parade

New Bearded Iris Aristocrats

A collection of recent introductions now at popular prices.

- California Gold.** One of the finest deep golden yellows ever introduced. 3 for \$1.25.
Dubrovnik. Outstandingly beautiful. Blended rose and gold. 3 for \$3.50.
E. B. Williamson. Glowing coppery red. Outstanding. 3 for \$2.75.
Sable. Almost perfectly black. Silky sheen. 3 for \$5.00.
Wabash. White standards, violet falls. Outstanding bicolor Iris. 3 for \$3.50.

Collection: 1 each of the 5 above varieties, \$5.50. 3 each of the 5 above varieties, \$15.00.

Established Favorite Collection

- Castalia.** A very beautiful light blue. 3 for \$1.25.
Cheerio. Bright red and old gold. A gorgeous combination. 3 for \$1.25.
Eros. Lovely large salmon-pink. Very shapely. 3 for \$1.25.
Gudrun. Enormous pure white; golden beard. 3 for \$1.25.
Jean Cayeux. Pale brown shot with gold. 3 for \$1.25.
Alice Harding. Soft, satiny golden yellow. 30 inches. 3 for \$1.75.

Collection: 1 each of 6 varieties, \$3.00; 3 each of 6 varieties, \$7.00.

New and Rare Collection—1942 Introductions

- Action Front.** Ochre-red, garnet-blue and yellow combination. \$8.50 each.
Captain Weils. Deep glossy maroon, yellow beard. \$9.00 each.
Flamely. A flaming red. Outstanding. \$10.00 each.
Majenica. Clear bright salmon-pink. \$10.00 each.
Old Parchment. Light creamy tan. A most beautiful flower. \$3.50 each.
Collection: 1 each of the 5 varieties, \$38.50.

Bearded Iris. Mixture. We have a choice selection of the finer standard varieties which we offer in a splendid mixture. No two alike. \$4.25 per doz.

PEONIES

For Best Results Plant Early

It is important to plant Peonies early so that the roots may begin a strong growth before hard winter sets in. While late planted Peonies produce very nicely, the difference between early and late planting is quite marked. Our tip is to plant as early in September as possible.

TWO FINE COLLECTIONS

OLD FAVORITE COLLECTION

- Charles McKellip.** Midseason. Full deep rich crimson. \$1.00 each.
Couronne d'Or. Late. Snow-white with sulphury yellow sheen. \$1.10 each.
Edulis Superba. Early. Rich rose-pink, very fragrant. 95c each.
Festiva Maxima. Early. Fine old favorite, pure white. \$1.10 each.
Mme. Calot. Early. Flesh-pink, yellow center. \$1.10 each.
Marguerite Gerard. Midseason. Enormous flower, flesh-pink. \$1.10 each.

Collection: 1 each of the 6 varieties, \$5.50 (value \$6.35). (This offer good until September 1st, only.) Postpaid.

NEW AND RARE VARIETIES

- Frances Willard.** Late. Ivory-white center, petals edged carmine. \$1.75 each.
Philippe Rivoire. Midseason. Deep rich permanent red. \$3.25 each.
Primevere. Midseason. Outer row of petals sulphur-white, center canary-yellow. \$2.00 each.
Solange. Midseason. Cream-white tinged buff-pink. \$2.25 each.
Therese. Early. Large fluffy flowers of exquisite pale pink. \$2.25 each.

Collection: 1 each of the 5 varieties, strong 2- to 3-eye roots, an \$11.50 value for \$10.50, postpaid.

Fall Flowering Bulbs - - - PLANT NOW - July to October

All of these bulbs should bloom a few months after planting. The earlier they are put in the ground the more satisfactory will be the results obtained.

- COLCHICUM.** Giant autumn-flowering Crocus. Jumbo bulbs.
Autumnale Major. Giant rosy purple. 3 for \$1.55; \$4.75 per doz.
Autumnale Album. Pure white. 3 for \$1.65; \$5.50 per doz.
Bornmuelleri. Huge flowers. Early flowering. Rosy lilac. 3 for \$1.90; \$7.00 per doz.
CROCUS ZONATUS. Autumn-blooming Crocus. An unusual species with warm rosy lilac flowers accentuated by an orange-scarlet tone at the base of each flower. Each bulb usually produces several blooms. Splendid for the rock garden. \$1.25 per doz., \$9.50 per 100.
GOLDEN CROCUS. (Sternbergia Lutea.) By far the most satisfactory fall-blooming bulb. Masses of pure golden yellow Crocus. Foliage remains ever-green throughout the winter. \$2.00 per doz.; \$15.00 per 100.
LYCORIS RADIATA. (Pink Spider Lily.) Hardy south of Baltimore, and in northern sections hardy with protection. An exquisite cut flower. \$2.00 per doz.; \$13.50 per 100.
ZEPHYRANTHES CANDIDA. (Giant White Spider Lily.) Beautiful effects can be obtained from planting masses of these splendid bulbs. Exquisite cut flowers. \$1.00 per doz.; \$7.00 per 100.

Schling's Famous PACIFIC HYBRID Delphiniums

Our inability to import the famous English strains of Delphinium has not impaired in any degree the advances that are being made in the development of outstanding Gold Medal quality Delphiniums. The Pacific strain has definitely moved into a dominating position in the Delphinium world. Fresh 1943 harvested seed will be ready early in August and all of our orders will be filled from this seed only.

Bluebird. For the first time genuine true blue with white bees. Single flowers 2½ inches in diameter. \$2.00 per pkt.

Cameliard. Pure lavender with white bee. \$1.50 per pkt.

Galahad. Pure white. Enormous size. \$1.50 per pkt.

Round Table. A preview of tomorrow's famous Delphinium varieties. All of the undisseeded crosses are represented in this strain. \$2.00 per pkt.

Collection: 1 pkt. each of the above new introductions, \$8.00 value, for \$7.00.

Recent Introductions of Pacific Hybrids

Black Knight. Dark violet with black bees.

Blue Jay. Medium to dark blue. Dark bees.

King Arthur. Rich, royal purple, white bee.

Guinevere. Clear pink-lavender, white bee.

Summer Skies. Heavenly blue with white bee.

\$1.25 per pkt.

COLLECTION: 1 each of the 5 Recent Introductions, \$6.25 value, for \$5.00.

COLLECTION: 1 each of all of the above varieties—9 varieties in all—for \$11.00.

Mixture of all standard colors of Delphinium Pacific Hybrids. 75c per pkt.; ¼ oz., \$2.50; oz., \$15.00.

Pacific Hybrid Delphinium in Plants

We offer plants of these famous Pacific Hybrids under color only as a special offer. Strong clumps, \$1.00 each; \$11.00 per dozen, for delivery from September 1st on.

Newer introductions will be available in plants at a later date. Look for our offers.

Other varieties of Delphinium in main list.

Schling's Exhibition Pansies

Sow seed in July and August. We deliver only freshly harvested seed.

Trimardeau Giant Mixed. Pkt. 15c; ¼ oz. \$2.00; oz. \$6.00.

SCHLING'S BEST ANNUALS for Fall Sowing

Fresh Larkspur Seed is Available in September. Best Sowing Date for Annual Larkspur is Late October and November.

We consider it advisable to list annual seeds that are very satisfactory for fall sowing, hardy annuals whose seed overwinter in the open ground.

The advantage of fall sowing is very marked. As soon as the weather breaks the following spring, the seed will germinate and the seedlings will be very much farther advanced than from spring sowing or from the use of transplanted seedlings.

The best date to sow most of this seed is November 1st to November 15th. If large masses of Petunias are desired, nothing could be more satisfactory than sowing such varieties as Rosy Morn, Rose of Heaven, etc., in the fall.

The same rule applies to Mignonette.

Due to limited listings we offer here only the best of each variety.

COSMOS—

Single Sensation, White, Pink, Crimson or Mixed. Pkt., 25c; ¼ oz., \$1.00; oz., \$3.00.
